

FYI for parents of grade 5
October 9, 2009

- Thank you for your support on Sharing the Wisdom Day. The students had a great time showing off their work and school. Mass was beautiful. It was great to see so many in attendance.
- Spelling words this week are from Science – parts of a cell. Each student will be creating a computer generated flip book to help them learn the parts of a cell.
- Soon we will be researching a saint. Please talk about the various people important to your child or the saint he/she may be named after. This will give him/her an idea of the saint to research.
- All completed papers this week have been corrected and share with our visitors yesterday. If you have not seen them, please track them down. They should include many Math practices, Social Studies test, and Science rubric for the Fire Prevention poster...
- Ask your child about the ELA character sketch being completed in ELA class.
