

FYI for September 11, 2009

Enclosed please find a few papers we have worked on this week. The penmanship really needs to be practiced slowly given the pattern to ensure success with cursive writing. The Spelling words this week are difficult because they sound alike. Please use Spellingcity.com for practice games with the use of the words in sentences. The public library is now open on Saturday. They have a computer lab that people may use for up to one hour.

In Math we are reviewing place value. The following websites have games to this and Math facts. 15 minutes per session on the computer is sufficient.

<http://www.softschools.com/mathg.jsp> Grade 5 Math Games

- Minute Math – Addition, Subtraction, Multiplication
- Fishing addition, fishing
- Addition and subtraction games
- Place value

Our schedule is going well. There will be Religion quiz on lesson 1 on Tuesday. We are learning about cells and there are many vocabulary words to be studied. Thank you for your support.
