Anything else you would like to share: For years, the room that I taught 5th grade in seemed exactly where I belonged since it was my 8th grade homeroom when I attended this school. Mr. Dan Case has told me that it's a good thing these walls can't talk! Now I teach 6th grade in a different room. After 20+ years in 5th grade, it's about time I made it to 6th, don't ya think?!
