Student Registration

re-registration forms online for next year. If your registration forms are not completed, we can not guarantee your child will have a seat in their class for next year. Our Pre-K and Kindergarten classes are nearing full capacity and so are some of our other grades. We need to order textbooks and supplies for the next school year and want to be sure our students have the resources they need. Therefore, it is critical for us to have an accurate number for our enrollment for next year. If you have questions or difficulties with the registration process, please don't hesitate to contact the office (315-769-5911) or Sarah Tsibuskly at sarahtsibulsky@yahoo.com. All forms are due to be submitted on May 13th.

ONLINE AUCTION

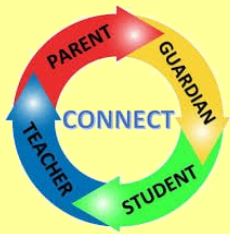

Trinity will not be able to hold our Gala this year due to restrictions. However, we will be hosting an online auction the first week of June. The theme for this auction is "Be a Dream Maker One Child at a Time". There will be a little twist to this auction. With help from our sponsors, we will be going to our local businesses to purchase items for the auction. We are hoping to help local businesses affected during these times. Also, if a business chooses to donate items, Trinity will be splitting the proceeds with that business. Our Art teacher, Mary Willmart has been working with students to create some wonderful classroom items. During this week we will be having some fun school events posted to our social media. This will be a week you won't want to miss. The auction site will be shared on our webpage as well as our social media when it gets closer.

ONLINEBOOK FAIR

We will be holding one more book fair May 17-21. Keep watching our website and our social media for the links and other information. You will have the option to shop, and then enjoy free shipping to TCS.

TRINITY'S PTC

Sarah Tsibusky, PTC president, along with Trinity's PTC are

thinking of some end of the year events. These events will be shared on our social media. Please understand that we still cannot have outside visitors, so these will be for our students **only**. All COVID guidelines will be followed. We thank the PTC for still keeping this year fun and interactive for our students.

THINKING OUT-SIDE THE BOX

As we round the corner to the end of the year, We want to thank all of you

for your continued support to Trinity Catholic School. This year has definitely been a year to think outside the box. We have done our best to keep our community connected with our school and follow the guidelines put in place with the NYSDOH. Safety was and continues to be our number 1 priority, while still providing students with an exceptional education. We have enjoyed being open 5 days and seeing all our students in the classroom and virtually. We look forward for next year.

MAY CROWNING

May is Mary's month. What will you and your family do to honor our wonderful Mother? Praying the Rosary is always a good option, or consider joining us virtually for our May Crowning on **Friday, May**

21. Please send in flowers on the morning of the 21st, so we may honor our Mother, Mary. Feel free to keep it simple—flowers from your yard are fine! More details will come soon.

ARTS FESTIVAL

Like so many of our events this year, our Arts Festival will be virtual. We hope you will tune in for our **Arts Festival** on **Friday, June 4th**. Our students love showing off the "special skills" they've learned in Music, Art and PE. But,

do you know why these skills are so important for child development? (*We ran this last year, too, but it's worth repeating!*)

MUSIC: "A 2016 study at the University of Southern California's Brain and Creativity Institute found that musical experiences in childhood can actually accelerate brain development...music ignites all areas of child development and skills for school readiness: intellectual, social and emotional, motor, language, and overall literacy." (www.brighthorizons.com)

PHYSICAL EDUCATION: "Integrating physical activity into young children's lives is essential for creating a foundation of movement and activity that they will carry with them throughout the rest of their lives. Physically active children learn habits in early childhood that greatly increase their chances of remaining physically active through their young adult and teenage years and into adulthood." (www.sparkpe.org)

ART: "...the arts allow kids to express themselves better than math or science, helps them increase motor skills, builds confidence when they have to step out of their comfort zone, strengthens problem-solving and critical thinking skills, develops focus, perseverance, and collaboration." (www.learningliftoff.com)
