## Trinity Students Prepare for Christmas Concerts

*Students practice for the upcoming concert, during the afternoon one day. Here they're practicing a dance number!*

*Mr. and Mrs. Claus visit Prek 3 & 4 recently.*

## The Country Lebanon

**By: Bryn Bero**

Many people do not know about this small country in Asia, although small, covering only 4,036 miles of land, it has around 6 million citizens! The country was founded on November 22 of 1943 but ancient Lebanon has existed for as long as 7000 thousand years which predates recorded history. The largest population is in the capital city of Lebanon, Beirut.

### Culture

The culture of Lebanon is predominantly more conservative, they also care very much about traditions. Some of their customs are similar to some other Arab countries. Some popular traditional foods include Tabbouleh, fattoush, labneh, sfeeha, falafel and shawarma. Some well known sweet dishes are baklawa, ka'ak and sfouf.

We will be getting into the traditional clothing and differences with women's traditional clothing and mens.

### Womens Clothes

- Gambaz which is basically a long dress
- Tantour. A tantour is a headdress that women would wear when they would get married

### Mens Clothes

- Labbade. It is a hat that has existed for thousands of years

### Gender Neutral Clothes

- Jubbe. A jacket that anyone can wear
- Sherwal. A sherwal are baggy pants that mostly men wear, but anyone can wear it.

## Spotlight on Ms. Augenstein

*I recently interviewed Ms. Augenstein about why she chose to begin teaching.*

*Ms. Augenstein the 5th grade teacher said, "My mother was a teacher, so was my grandmother, both great-grandmothers, and two of my aunts were all teachers." Ms. Augenstein said, "I also love explaining things." Ms. Augenstein further went on to say that she "loves it when a student understands something new for the first time and it's fun to meet new kids and families. There's been times where I have kept in touch with students into adulthood. It's neat to see what they become in life."*

### Is Pizza Hut the BEST Pizza? By: Autumn Ruby

Pizza hut: I really think that pizza hut has the best pizza and that you should get one if you can. The first pizza hut was made on June 15 1958. Pizza hut got its name because two brothers borrowed \$600 from their mom to open a pizza place. They named it pizza hut because their sign only had room for eight letters. My favorite thing there is the pepperoni pizza. there are more than 16000 locations of pizza Hut. Dan Carney and Frank Carney founded Pizza hut in 1958.

*Trinity Kindergarten Students share a book with Bishop Terry LaValley, during his most recent visit.*

## Hockey, Why You Should Try It!

Our team's worst enemy is the blades, when we are playing hockey. I like to play hockey and I play on the 46ers. Sometimes our team gets MAD. I am mad too but not as mad as my team. We have not lost a game for a long time but that changed about a year ago and yes, it all started from the blades! That day, we lost to their team. But I still like to play hockey. By the way, the 46ers is an girls only team. That means there are no boys on the team. I think that you should play hockey! Trust me it is really fun. This is what you need for hockey: a helmet, neck guard, mouth guard, Jersey, shoulder pads, elbow pads, gloves, hockey sticks, hockey pants, shin pads, hockey socks, hockey skates and a big bag to hold it all! I hope you decide to play hockey.

## Friends

By: Sophia Thompson and Jillian Tsibulsky

### New friends: Chapter 1

One beautiful summer day, it was the first day of school. Sophia was walking to school when she saw another girl. Hi, I'm Sophia, what's your name? Said Sophia. I am Jillian. Do you want to go to Stewarts after school? I guess Jillian said I was sort of confused. Ok, we can meet at the front of the school, said sophia. Ok then said Jillian, still a little confused. What's your next class said sophia? "As the bell rings abruptly!" MATH yelled Jillian. Hi, how was math, said Sophia. Good said, Jillian. Ok my Mom said you can ride with me and my Mom to Stewarts if your Mom says that's ok, said Sophia. Ok I will check, said Jillian. Jillian calls her Mom hey mom can I go with my friend after school yes said Jillian's mom. Ok I can go, said Jillian. Great, said Sophia, Let's go Outside my mom should be there waiting for us, said Sophia. Cool said, Jillian. There she is, said Sophia. Let's go, I can beat you there, yelled Jillian. No, yelled Sophia. (Car door opens). Hi im Erin whats your name, said Sophia's Mom. I'm Jillian. It's nice to meet you. It's nice to meet you too, said Erin. What are you going to get Sophia, Jillian said. Brownie cookie dough sundae, said Sophia, Oh that sounds good. What are you gonna get, said Sophia. I don't know. Okay, said Sophia.

Check out our next issue for Chapter 2!

## Basketball

Basketball! You should try it! Here are some tips for beginners. First you need to learn to dribble, which is when you bounce the ball in front of you, and move. Next, you need to learn to pass. Passing is when you throw the ball to your teammates. If you join a team and practice you will learn to make baskets as well. You can also learn to make layups. A layup is when you dribble to the basket, then throw the ball up and try to bounce it off the backboard and into the basket. Some of my friends are on my team. Christmas is coming up, so you can ask Santa Claus for a basketball hoop! I hope you consider joining a basketball team, it's a lot of fun.

# Mathletics!

By Autumn Ruby

In Mathletics we have been making pixel art. We hope we learn more about math or make other cool things like pixel arts. We haven't been in mathletics because our teacher had to go to surgery, but we hope she gets better. Anyways in January I hope you sign up for mathletics 4th-6th grade if you can.6
